MEDICAL

Battery Powered Saw

Cordless

The De Soutter Medical CSB-100 saw allows the user total freedom of movement, which is particularly useful for medical emergency services, ward work, the veterinary profession and numerous other applications where the cordless concept is the only practical solution.

CSB-100

Saw specification

Saw model	CSB-100
Oscillating speed	16000 cpm
Battery voltage	10.8 Vdc
Weight	1050 grams
Order code	1286224

Supplied with saw blade Part No. 6250.
See page 9 for other saw blade options.

Battery

Voltage	10.8 Vdc NiMH
Capacity	2600 mAh
Order code	15010

Battery charger

Supplied with interchangeable mains supply adaptors for use in most countries.

Charger model	BC-100
Supply voltage	100 - 240 Vac
Supply frequency	50 - 60 Hz
Order code	15020

CSB-100-A Cast Saw System

Order code 1286774 - comprising of:

CSB-100 Saw	Part No. 1286224
CB-100 Battery x 2	Part No. 15010
BC-100 Charger	Part No. 15020
Saw blade	Part No. 6250
Hexagon wrench	Part No. 204903
Carry case	Part No. 15030

Battery/Mains Powered Saw

Paediatric

Saw specification

Order code	1286994
Saw model	CSP-201
Oscillating speed	14800 - 17500 cpm
Handpiece weight	319 grams
Noise level	55 dB(A)

- Soft start feature with noise control helps minimise patient anxiety.
- Rapid charging time - under 3 hours.
- Continuous 2 hour - cutting performance.
- Built-in service reminder - 300 charging cycles.
- Display allows the user to select the optimum cutting speed and view the remaining battery capacity.
- Micro processor controlled voltage booster ensures constant cutting performance - zero deterioration. See graph below.

Battery specification

Order code	15250
Battery pack model	BP-201
Battery capacity	30.8 Wh
Battery weight	437 grams
Charging time from flat	< 3 hours

An integral clip with both battery pack or mains power adaptor for increased portability.

CSP system power/cutting performance

25 mm
Part No.
15310

Part No.
15320

Mains operation:
The CSP-201 saw is fitted to
the IC-201 Inter Connector
and PS-201 Power Supply.

CSP-201-A Pro Cast Saw System

Order code 1286984 - comprising:

CSP-201 Saw and cable	1286994
BP-201 Battery Pack Pro	15250
IC-201 Inter Connector	15270
PS-201 Power Supply	15280
Carry Case	15290
Wrench	15300
Saw blade	15310
Saw blade	15320

Please specify Cordset required. See below

Mains Supply Cordsets

2 metres long

UK - C7 plug	15610
EUR - C7 plug	15620
USA - C7 plug	15630
AUS - C7 plug	15640
Japan - C7 plug	15650
Swiss - C7 plug	15660

Low Voltage Saws

Corded electric

The CC5 and CC6 models combine the latest technological features with a functional, ergonomic handgrip. The smooth contours are designed to fit comfortably in the hand while providing the ideal cutting position. The balanced weight distribution increases manoeuvrability and helps to reduce wrist fatigue.

On the CC5 model, the dust extraction path is ducted internally through the handpiece which significantly improves visibility and handling in comparison to conventional saws fitted with extraction.

Rubber motor mounts insulate the internal mechanism from the outer case. This results in extremely low noise and reduces vibration to the operators hand.

A two speed control on the handpiece gives a quieter, low speed setting which is ideal for use with children and a high speed setting for fast removal of thick body casts.

Power Supply

CC5 and CC6 saws require their own low voltage power supply unit. On the CC5 model, the power supply is integral with the dust extraction unit. CC6 Saw is supplied by the PS6 power supply unit. See opposite page for options.

Optional wall mounting bracket.

Part No. 7670

CC5

CC6

Handpiece Specification

High oscillating speed	16000 cpm
Low oscillating speed	11800 cpm
Voltage	22/29 Vdc
Weight	850 grams
Sound level	68 dB(A)
Length	245 mm

See opposite page for ordering instructions.
See page 8 and 9 for accessories and saw blade options.

Power Supply for CC6

The power supply unit can be either bench mounted or wall mounted with the fixings provided.

Output voltage	22/29 Vdc
Supply frequency	50 - 60 Hz
Weight	1510 grams
Dimensions - mm	215L x 63H x 98W

Extractor unit for CC5 and CC4

The four stage filtration system consisting of an easy to change disposable collection bag, two cloth filters and a micro filter. The micro filter retains 99.997% of all dust particles greater than 0.5 microns.

Suction can be switched between powerful 'high' and quiet 'low' setting to suit operator and patient convenience.

The extractor with its exceptional dust filtration capability can be connected to either the CC5 or CC4 saw. When the saw is switched on, the extractor starts automatically. Likewise, the extractor stops automatically five seconds after the saw is switched off, thereby ensuring the system is purged of all cast particles.

The hose attachment position and low centre of gravity make the extractor very stable thus preventing accidental overturning.

System complete CC5A

Extractor Specification

Motor power (max.)	1 kW
Supply voltage	240 or 100 - 120 Vac
Supply frequency	50 - 60 Hz
Suction	2500 water gauge mm
Filtration	99.997% > 0.5 microns
Dust bag capacity	7.5 litres
Sound level	58 dB(A)

See page 8 for replacement filters and paper collection bag.

How to order CC5 system - with extraction

System components		U.K. plug 230 V	Euro plug 230 V	U.S. plug 120 V (CSA)	Aus plug 230 V

CC5 and CC6 saws, power supplies and extractor are type tested to EN60601-1:1990, BS5724: Part 1: 1989, IEC 601-1: 1988. 120 V model is CSA approved.

Mains Voltage Saw

High power

The CC4 with its powerful 110 watt motor maintains rapid and efficient cutting on the thickest of body casts.

The knurled grip close to the saw blade provides the operator with excellent control and flexibility of movement.

There is an optional clear extraction hood which ensures good visibility when cutting. The hood is fully rotatable to suit the most convenient cutting position.

See extractor on page 6 for full extractor specification.

CC4 saw specification

Oscillating speed	14000 cpm (or 16000 cpm)
Voltage	230 Vac (or 120 Vac)
Weight	1300 grams
Sound level	70 dB(A)
Length	333 mm

See page 8 and 9 for accessories and saw blade options.

Extraction hood with 2 metre hose. Part No. 78472.
